Dear Miss Medlock:

In a recent letter to my wife and myself, Mrs. Ellen Watumull of Hawaii, enclosed a portion of a letter from you dated July 20th. What you had to say aroused our interest to a great extent. We were particularly interested to note your comments regarding the NEW OUTLOOK, and in your sensing a Theosophic trend in the ideas put forward in the magazine. This can bring about a closer mutual relationship, for it was Theosophy or the teachings of Madam H. P. Blavatsky with which we have been in touch for the past fifty years, that were the real inspiration of our starting this publication. That was at the time we retired from Medical practice, some twelve years ago. It is also through these teachings that we have learned the fundamental identity in Buddhism, Vedantism and Christianity, etc. We have been National members of the Theosophical Society for about three years and visited Adyar, Madras two years ago.

It would be of interest to learn the background of the inspiration of your efforts. Considering your remarks, there is no doubt we could cooperate and be of mutual help in extending interest in the "Ideas and Ideals" of NEW OUTLOOK. We have some subscribers in India and a number of Universities and Libraries receive the magazine gratis. We do not get the response from India as we do in America.

We will be happy to put you on our mailing list. May we hear from you at your convenience.

My wife joins me in sending greetings to you.

Cordially yours

Hyman Lischner
